Abstract: The Consumer Financial Protection Bureau (CFPB), beginning in the winter of 2015, will launch a multi-site financial education demonstration project to provide one-on-one and group financial counseling/coaching services to individuals with disabilities transitioning into the workplace or already employed. The goal is twofold: 1) to improve the financial skills of

approximately 15,000 individuals across the spectrum of disability to effectively navigate the financial marketplace, resulting in improved credit, reduced debt, and increased savings; and 2) to build the capacity of diverse multi-sector systems (non-disability and disability) in up to 14 cities to unite around the common purpose of building financial security for individuals with disabilities. CFPB envisions the need to collect a combination of client personally identifiable information (PII), including direct-identifying PII (i.e., basic contact and demographic information), performance metrics (outputs), as well as other relevant organization-level outcomes. Monthly qualitative reports and quantitative aggregated individual data will be collected from participating sites to document the design, growth and impact of up to 14 integrated diverse delivery models serving primarily low-income populations with disabilities.
